

Promo Code: X05

Learning Objectives:

- Basic Skills for Electrical Troubleshooting
- Troubleshooting Control Circuits
- Troubleshooting Motors
- Troubleshooting Power Distribution
- Power Quality Problems
- Troubleshooting Lighting Circuits
- Troubleshooting Programmable Logic Controllers
- Troubleshooting Variable Frequency Drives (VFDs)
- Electrical Preventative Maintenance

“Hands-On”

Electrical Troubleshooting & Preventive Maintenance™

**Specifically
Designed for
Building, Plant,
Facility and
Electrical
Equipment
Maintenance**

“...full of useful information that pertains to what i do at my job.”

Ian A. - Engineering Technician

Learn how to fix electrical problems quickly and safely

Cover the most commonly performed electrical troubleshooting tasks

- Reserve your space now! **CALL 1-877-978-7246**
- Check us out online at live.tpctraining.com for a complete listing of all seminars coming to your area
- This seminar is also available as an **Online Simulcast** or can be brought **On-Site** to your facility

SEMINAR OVERVIEW

Working with real-world components, students in this two-day “hands-on” Electrical Troubleshooting course will learn how to fix electrical problems quickly and safely. This two-day course was created to bring students up to speed in their electrical troubleshooting skills as efficiently as possible, and it was designed to cover the most commonly performed electrical troubleshooting tasks a maintenance technician faces in their job every day. For the novice or experienced electrician, this training course provides a no-nonsense, practical, and real-world systematic approach to electrical troubleshooting. This course can also be adopted as part of a company’s regular Qualified Electrical Worker program.

This 2-day seminar is just \$1100. You can also combine it with our Basic Electricity course for a comprehensive 4-day **Electrical Workshop**. Or take your troubleshooting skills to the next level by adding on the optional two day **Advanced Electrical Troubleshooting** course.

WHAT YOU WILL TAKE HOME

- A laminated, full-color TPC Training Reference Guide detailing all the “must-know” information covered in the class. Keep this with you while on the job for immediate knowledge recall.
- Comprehensive classroom materials
- A Personalized Training Certificate with 0.8 TPC Training Continuing Education Units for each day attended, 1.6 for both days.
- All the information you need from asking our instructors specific questions about your own unique equipment or facility.

CONTINUING EDUCATION

Upon completion of this seminar, the student will receive a Certification of Completion and .8 TPC Training CEUs per day attended. Most employers and many government agencies accept TPC Training CEUs to fulfill their continuing education requirements. If the student needs CEUs to renew a state license, please contact us at 303-867-5035 to ensure the state licensing board has approved the seminar. If we are currently not approved by your state licensing board, we are happy to begin the process as long as we receive your request at least one month before the training date.

**“All questions answered...
great depth of information.
Time and money well spent.”**

Robert E. - Maintenance Engineer

DISCUSSION TOPICS

Basic Skills for Electrical Troubleshooting

- Safety First
- OSHA Requirements Regarding Troubleshooting and Qualified Persons
- Using Electrical Drawings
- Using Electrical Meters
- Systematic Approaches to Troubleshooting

Troubleshooting Control Circuits

- Building a Circuit from a Ladder Diagram
- Control Circuit Industrial Applications
- Control Relay Logic Circuits
- Automatic Motor Control Circuits
- Timer Sequence Circuits
- Testing Field Components
- Control Relays
- Motor Starter Contactors
- Overload Devices
- Solid State Timers
- Limit Switches
- Auxiliary Contact Blocks
- Indicator Lamps
- Push Buttons and Selector Switches
- Circuit Breakers and Fuses

Troubleshooting Motors

- Most Common Motor Problems
- Performing Electrical Tests on a Motor
- Using the Megohmmeter on a Motor
- Testing Windings
- Phase Unbalance and Rotation Testing
- Forward/Reverse Motor Starters

Troubleshooting Power Distribution

- Wye and Delta Systems
- Overcurrent Protection
- Checking and Replacing Fuses
- Branch Circuits

Power Quality Problems

- Sources of Power Quality Problems
- Test Equipment for Troubleshooting
- Harmonics
- Phase Unbalance

Troubleshooting Lighting Circuits

- Lighting Terminology
- Types of Lighting Circuits
- Incandescent, Fluorescent, HID and LED

Troubleshooting Programmable Logic Controllers

- Components
- Reading PLC Ladder Diagrams
- Status Indicators and Error Codes
- Force and Disable
- Startup Procedures

Troubleshooting Variable Frequency Drives (VFDs)

- VFD Terminology and Basic Operation
- Components
- Common Problems and Corrective Action

Electrical Preventative Maintenance

- Why Perform Electrical Maintenance
- Building Your Own Inspection Checklist

SEMINAR FEE & AGENDA

This 2-day course is just \$550 per day (Earn 1.6 CEUs)

7:30 am	Registration
8:00 am	Class Begins
12:00 -1:00 pm	Lunch (on your own)
4:30 pm	Class Ends

NO RISK REGISTRATION & MONEY-BACK GUARANTEE

You can reserve your space in the class at any time and cancel without penalty. Cancellations made more than 14 days prior to the seminar may be refunded or rescheduled. Cancellations made within 14 days may be rescheduled for any future topic and/or date. If you’re not satisfied with the course, we’ll promptly refund your payment.

JOIN OUR CLASSROOM SEMINARS FROM VIRTUALLY ANYWHERE

live.tpctraining.com/simulcast

Our simulcast option allows students to connect to a live classroom seminar via a web link, with the ability to participate fully in the classroom dialogue, exercises, and Q&A. Online participants get all the benefits of the full classroom experience, plus the convenience of remote access.

Features include

- Two full days of live, interactive instruction from a TPC Training instructor
- All classroom materials in PDF format
- Certificate of completion for 16 hours of live training
- Full technical support to ensure your online experience is a rewarding one

BRING THE TRAINING ON-SITE TO YOUR FACILITY

live.tpctraining.com/on-site

Every public seminar class in our Course Catalog can be conducted on-site, with the same expert instructors. To arrange an on-site training, call or email us at onsite@tpctraining.com.

Some Advantages of On-Site Training

- Cost Savings — Save time and travel costs by keeping workers on-site
- Customized Content — Tailor the seminar to your facility and equipment
- Flexibility — Accommodate multiple shifts and different start and end times
